Contrary to popular belief, your constituents don't always want to see their tax dollars at work.

Constituents are fickle. They want the best public works as long as it doesn't inconvenience them. Which is why the city of Elmhurst voted for Insituform's 30 years of trenchless technology experience to repair its sewer lines. While digging and replacing sewer lines can take weeks, we had service back up and running before residents got home from work the same day. No disruptions. No property restoration. No angry phone calls. And best of all, our speed and experience meant that Elmhurst's entire repair efforts were completed on schedule and within budget. To see how we can save tax dollars and headaches for your city, call us at 800-234-2992 or visit our website at www.insituform.com. **Because only our experience shows.**

GARAN LUCOW MILLER P.C.

Aggressive and cost-effective legal representation for Michigan municipalities since 1948

Deliberate Growth, Stable Expansion.
Since its founding in 1948, Garan Lucow Miller, P.C. has grown from a small law office in Detroit, Michigan to one of the largest in the state. Located in nine offices throughout Michigan, the Firm has preserved its reputation for quality representation provided on a personalized basis by maintaining smaller offices within the confines of a larger firm. Each of these offices is managed and staffed by attorneys who are a part of the community in which they practice, also supporting our commitment to personal representation.

Versatile Legal Experience.
Garan Lucow Miller, P.C. is one of the most experienced defense law firms in Michigan. With more than 80 attorneys statewide, GLM provides expert counsel in all areas of municipal interest, litigation and defense, and represents a broad spectrum of insurers, municipalities and private clients in all state and federal courts.
